Testimonials

Dear Liaan & Tom

The painting contract for 19 Cambridge Drive, Durban North has reference.

Yvette and I would like to thank you and Tom for carrying out a difficult external refurbishment contract on our home. The manner in which Tom and his team carried out the work was exemplary and the their general conduct around our home was a refreshing change from the norm in the industry. The standard of workmanship employed by your team to repair the plaster cracks and degeneration of plasterwork, was excellent. I did not feel I had to intervene at all, as it was all done correctly the first time.

I would also like to thank you for attending to the structural crack and by employing a recognised engineering solution.

Yvette is absolutely thrilled with the cosmetic changes to our home and thank you for all your time and patience in getting the correct colour.

I hope your business grows on the back of your excellent service delivery.

Regards

To whom it may concern

Las Vegas is an iconic frontline building on North Beach, Durban. Because of its position it is battered by prevailing winds and requires constant external attention to keep it looking good. Over the years we have used an assortment of contractors but for the past five years we have been a "Dafco" building. They have undertaken spalling, painting and very major construction work for us. They are members of the Master Builders Association and have assisted us to source additional technical advice when we have needed it. Their work performance here has spoken for itself and has resulted in them being awarded further work in the area. We are more than happy to recommend them and wish them luck with any association with you.

Re: Maintenance work Alaska during 2016 on quotes no. 32715, 6716, 22216

Please take note of our sincere appreciation for the repair- and paint work that was done during 2016 on the exterior of Alaska.

Firstly, the manner in which you effortlessly assisted with selecting the combination of colours and mixing it to suit the exact tint of paint.

Secondly, the thorough inspection and repairs to the hidden spalling, was assuring and to the satisfaction of the selected members of the Board of Trustees.

The application of the paint work was of a high standard and showed that your company is proud of what they are doing by demonstrating that the workmanship must be perfect.

Lastly, and probably more important is the fact that your after care service is satisfactory and effortless in the manner that you attend immediately to queries etc. and finalizing loose ends without delays, arguments or ill feelings.

The BC of Alaska would without a doubt, recommend business with Dafco as it also makes general cooperation easier and quicker because of your company's local residence.
